

Xen Premium e107 Theme

Diesel

by roofdog

Theme Features include :

- Three layouts (three, two column and full width)
- Twelve menu areas
- Custom login and search buttons
- Other News templates
- Loads more templates
- Table-less design
- 100% XHTML 1.1 compliant
- 100% Cross browser compatible

Bonus Features include:

- Built-in news item social bookmarks

Recommended Settings:

Go to your e107 administration area.

Images – Image settings

Enable Image Posting
Enable Sleight

Preferences – Text rendering

Switch **ON** 'classic' nextprev view

Welcome Message – Preferences

Tick '**Enclose in menu table**' and tick '**Override standard system to use {WMESSAGE} shortcode** '

How To Use :

Installation

Unzip the file you have been sent. Upload the “**Diesel**” folder to you e107_themes directory using an FTP client. Then go to “**Admin > Theme Manager**” and activate Diesel.

Inbuilt News Social Bookmarks

A great feature is the news social bookmarks. It is in-built to the theme so there is no need for additional social bookmarking plugins.

To remove the feature simply open theme.php and remove the **{XSHARE}** shortcode from the newsstyle.

How To Change The Header Logo *(psd supplied to Xen Club Members only)*

You can find all needed source files in folder "[_sources](#)" in the downloaded ZIP package.

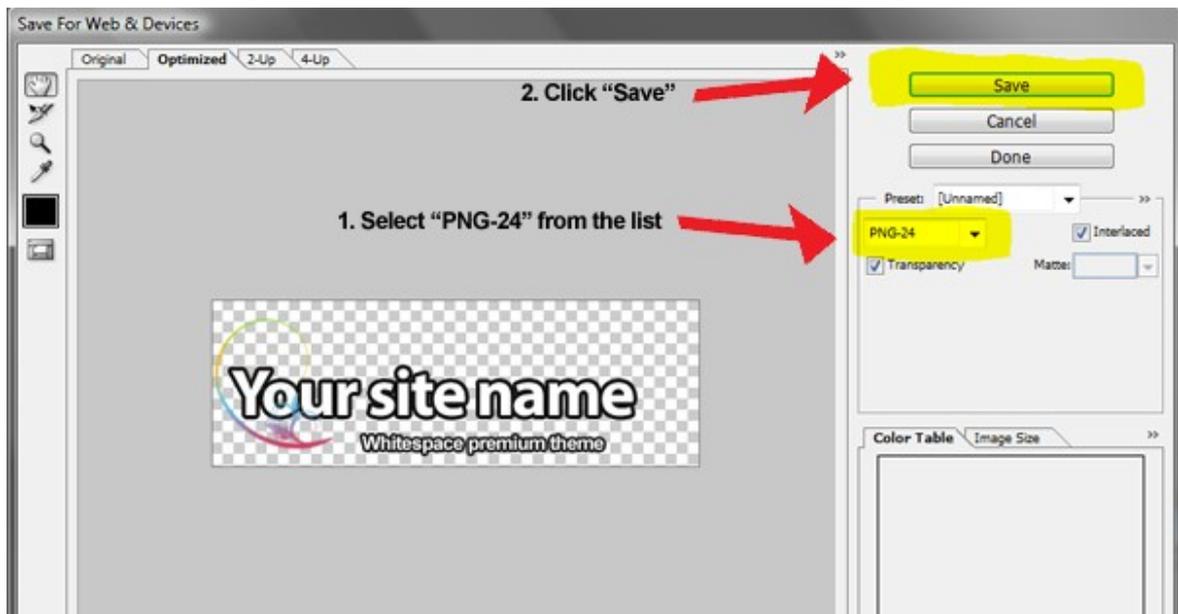

1. Open "[logo.psd](#)" in Photoshop

2. Double click the "[Your site name](#)" box and type your site name

3. Repeat the process for the "[e107 premium theme](#)" layer. Use the arrow keys to move left or right.
4. Click on "[Files > Save For Web](#)".

5. Click on **“Save”** then overwrite the existing logo.png in your **“e107_themes/Diesel”** folder.

6. All done!

Enjoy!
